DESIGN INTERNSHIP
MAY 2019 - SEP 2020

· Led CGI and CMF design, managing visual design from concept to final execution while actively contributing to design projects and creative processes.

· Managed CMF projects, including supplier research, cost analysis, feasibility studies, prototyping, and production planning, ensuring alignment with engineering, marketing, and corporate goals.

· Created high-quality CGI visuals for internal use, customer portals, trade shows, and marketing campaigns, handling rendering, compositing, and animation to enhance visual quality and brand consistency.

· Developed visual narratives and design language for emerging technologies (GSR, V2X), translating complex innovations into compelling, market-ready content.
